‘Use and Misuse of Sepsis Screen in Neonates: An Observational Study of Clinical Practices’

Case Record Form

S.No

Area:

NICU/NNN/CLR/CEN

Section A: Demographics

CR Number/ NICU no.	
Date of Enrollment	DD/MM/YYYY
Baby's Name	B/O
Date of Birth	DD/MM/YYYY
Sex	☐ Male ☐ Female
Gestational Age at Birth (weeks)	
Birth Weight (grams)	
Mode of delivery	
Indication in case of cesarean delivery	

Section B: Maternal risk Factors for Sepsis

Risk Factor	Present	Absent
Maternal fever >100.4°F	☐	☐
Foul-smelling liquor	☐	☐

Meconium-stained liquor	☐	☐
PROM >18 hours	☐	☐
Prolonged labor	☐	☐
Suspected chorioamnionitis	☐	☐
Maternal antibiotics	☐	☐

Section C: Clinical Features at the time of sending screen

Feature	Present	Absent
Lethargy/Poor activity	☐	☐
Temperature instability	☐	☐
Feeding intolerance	☐	☐
Respiratory distress	☐	☐
Apnea or seizures	☐	☐
Others		
Others		

Antibiotics at time of Screen

Antibiotic	**If yes (Start date)**	**No**

Section D: Sepsis Screens

Screen no.	Date	List of Tests done	Indication	Blood culture sent Yes/No	Expert adjudicators' opinion

1					Appropriate/ Inappropriate
2					Appropriate/ Inappropriate
3					Appropriate/ Inappropriate
					Appropriate/ Inappropriate
					Appropriate/
					Inappropriate

Screen results and actions

Date : Screen no. 1

Parameter	Value	Interpretation of treating team(positive/ negative)	Interpretation of investigators
ANC			
CRP			
Procal			
Blood culture			
Antibiotics decision of treating team based on screen results	Start/Stop/Upgrade/Continue same/ No decision/Predecided to start or upgrade antibiotics		

Final Duration of antibiotics (in days)					Reason for Antibiotic duration
	Antibiotic	Start date	Stop date	Duration	
Clinical Course					

Date : Screen no. 2

Parameter	Value	Interpretation of treating team	Interpretation of investigators
ANC			
CRP			
Procal			
Blood culture			
Antibiotics decision of treating team based on screen results	Start/Stop/Upgrade/Continue same/ No decision/ Predecided to start or upgrade antibiotics		

Final Duration of antibiotics (in days)	Antibiotic	Start date	Stop date	Duration	Reason for duration

Clinical Course		

Date : Screen no. 3

Parameter	Value	Interpretation of treating team	Interpretation of investigators
ANC			
CRP			
Procal			
Blood culture			
Antibiotics decision of treating team based on screen result	Start/Stop/Upgrade/Continue same/ No decision/ Predecided to start or upgrade antibiotics		

Final Duration of antibiotics (in days)	Antibiotic	Start date	Stop date	Duration	Reason for Antibiotic Duration
Clinical Course					

Section E: Outcome

Final diagnosis	Treating Team	Adjudication
Sepsis confirmed	☐ Yes ☐ No	
Discharge status	☐ Alive ☐ Expired	
Date of discharge/death	DD/MM/YYYY
